

Notice of Public Information Centre No.2

Havelock Wastewater Treatment Plant (WWTP) Schedule 'C' Class Environmental Assessment

The Township of Havelock-Belmont-Methuen is undertaking a Class Environmental Assessment (Class EA) Study to plan for additional sanitary sewage capacity to service the Village of Havelock. Additional capacity is required to support growth forecasts to 2041 and beyond. The study is being conducted according to the requirements of a Schedule 'C' project under the Municipal Class Environmental Assessment document (October 2000, amended in 2007, 2011 and 2015).

PIC No. 1 material was available on the Township's website from March 3, 2022, until Thursday, April 21,

2022. PIC No. 1 introduced the project as well as servicing alternatives. It was identified that the existing Havelock WWTP is to be expanded.

The preliminary design concepts for the Havelock WWTP have been identified to:

- Meet future servicing requirements,
- Increase operating flexibility and reliability, and
- Meet current industry standards and best practices.

How to get involved?

Interested parties are invited to attend the second Public Information Centre (PIC).

The Township of Havelock-Belmont-Methuen encourages anyone with an interest in the project to attend the second Public Information Centre to learn more about the study, including:

- An overview of the design concepts identified for the Havelock WWTP,
- Information on the decision making process and preliminary preferred design concept, and
- An opportunity to contact the project team representatives if you have any questions or would like to provide input.

The PIC materials, including the presentation recording, and video transcript will be available on the Township's website at the link provided below starting **October 25th, 2022** until **November 22, 2022**.

Website:

The second PIC is scheduled for:

Date: November 8th, 2022
Time: 1:00 – 3:00 pm
Location: Lions Hall, Havelock Community Centre
39 George Street East, Havelock

Public consultation is an integral component of this project. You are encouraged to attend the Public Information Centre material and provide your feedback, questions or comments.

Comments received through the course of the study will be considered in finalizing the preferred solution. If you have any questions or concerns, please contact one of the following individuals listed below:
